

Stone cold glamour

Stonemason Jim Flanders' stunning work is testament to his valued reputation among industry professionals and homeowners.

The craftsmanship of Jim Flanders Stonemason is highly sought after by homeowners, builders and architects alike. "They generally approach me all searching for a stone design that is 'unique' and 'original'," says Jim. It is then left to him to provide a series of pleasing design ideas that overcome site restrictions and exude individuality.

"A lot of groundwork is always required," says Jim. "Generally I produce panels of the stonelook I am able to create and then gauge the client's response. Usually after a few trial and errors that a final stone type and design is decided on."

Jim sources materials from overseas as well as local quarries in order to provide a completely original patterns and products.

KEY PRODUCTS

THE WALL IS FORMULATED from a mixture of local and overseas stone to provide a coarsed random style with larger pieces involved. The project incorporates chiseled cut quoins. Above.

TRADITIONAL BROAD BOOKLEAF STONE features with cut quoins (chiseled corners) to accommodate the long, thin shapes of the stone. Left.

ABOUT Jim Flanders Stonemason

Jim Flanders Stonemason offers a quality service in building and design. Personally selecting his own special blend of stone for most of his jobs, Jim is always happy to cater to the client's request.

Working as a stonemason for more than 35yrs, the quality of workmanship is obvious in the final results. Jim is well-known in Perth, having built trusted relationships with reputable builders and architects who require a high standard of workmanship.

Jim works on projects including restorations, carvings, sandstone and granite.
